

# PREZI

Using [Prezi](#)... For your Prezi select an educational topic that you are passionate about. This could be anything such as your teaching philosophy, your mission, goals or it could be a specific educational topic like assistive technologies, or a select program of your choice. After you create your Prezi presentation, you will place this in your portfolio for your employers to see. Create a website page in your portfolio that is called Technology Integration. Place this along with a reflection of what you have learned by doing this assignment as well as a list of the ICT's that you think would be applicable for this activity.

Your Prezi should include the following elements and features:

**/90**

- Create an account and Sign-in (/2)
- Click "create" to start your new Prezi with a white background ONLY! (-10 marks for colored backgrounds)
- Create ten objects of varying sizes and orientations (/50 - 5 marks per item when done correctly)
  - textboxes (minimum of 5)
    - appropriate to overall topic
    - variety of orientations and zooms
  - videos (minimum of 2)
    - YouTube or your own
  - images
    - at least 5 that support your topic
    - that are manipulated and changed so their zoom is appropriate for the frame, path and presentation.
  - objects appropriately grouped in frames
- Use of contrasting text and colors to make things stand out (/10)
- Create a path for your objects that is logical and smooth. (/10)
- Minimum of two ICT's listed (/8)
